**DETAILED ACTION**

***Election/Restrictions***

1. Claims 1, 3, 12, and 13-15 generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 6-9, 16-20, 59-61 and 63 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. Claim 55 is also no longer withdrawn from consideration even though it does not depend from claim 1 or 73. The closest prior art is Newsham et al. (U.S. Patent No. 5,691,011). Although Newsham teaches the deposition of a silicate layer followed by an organosilane, Newsham does not teach or suggest the combination of dimethyldichlorosilane and silicon tetrachloride. Newsham requires the presence of an alkyl group on the silane and thus does not allow for the use of silicon tetrachloride.

2. Claims 1, 3-9, 12-20, 55-63, and 71-79 are allowed.
